DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-4, 7, 9, 10, 13, 14, 24-27 and 29 are rejected under 35 U.S.C. 102(b) as being anticipated by Gautsch (5,888,831). This rejection was originally applied to claims 1-3, 9, 10, 13 and 14 in Paragraph 5 of the Office Action mailed 5/31/07. It remains in effect and now applies to additional claims 4, 7 and 24-27 as well. Please see Response to Arguments below.

Response to Arguments

- 3. Applicant has argued that the references Konrad and Gautsch do not teach a plurality of container assemblies but instead teach two different embodiments of the same container assembly. This argument is persuasive with regard to the Konrad reference. The 102 rejection of claims 1-6, 10-17 and 19-23 under Konrad is removed.
- 4. This argument is not persuasive, however, for the Gautsch reference. The Examiner directs Applicant to column 8, line 52 column 9, line 51. In this passage, Gautsch discloses a "great number of sample containers (12, 12a) nested in collection

Application/Control Number:

Art Unit: 1797

containers (11) in array form (col. 8, lines 57-60). Gautsch also discloses collecting materials in selected containers (col. 9, lines 15-22). The Examiner has included a rejection of claims 24-27 based on the recitation of the collection step. Claims 4 and 7 are now also rejected based on the filter (13) teaching. The Examiner considers a container having a filter bottom to be "closed".

Allowable Subject Matter

5. Claims 15-23 are allowed. Claims 5, 6, 11, 12, 28 and 30-33 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 24 and 25 were previously deemed allowable but have now been rejected based on a newly cited passage from Gautsch. The Examiner apologizes for the oversight.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dwayne K. Handy whose telephone number is (571)-272-1259. The examiner can normally be reached on M-F 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill Warden can be reached on (571)-272-1267. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
